AUGUSTA begins buy-back of treasury shares

Frankfurt am Main, July 20, 2007. AUGUSTA Technologie AG (ISIN DE000A0D6612), listed in the Prime Standard, is utilizing its authorization to buy back treasury shares. The Annual General Meeting of Augusta Technologie Aktiengesellschaft, which was held on June 14, 2007, granted a new authorization to acquire treasury shares up to a maximum of 10% of the Company's share capital while canceling the previous authorization. The new authorization is effective until December 13, 2008.

In case of a buy-back, the price (excluding selling costs) at which the shares are acquired may not be more than 5% below the market price. The relevant market price is the daily closing price of the Company's shares as quoted in the XETRA® electronic trading system on the Frankfurt Stock Exchange, on the three trading days before the shares are acquired in each case.

On the basis of the newly granted authorization, the Managing Board resolved on July 18, 2007 to acquire up to 337,421 ordinary shares with a notional value of EUR 1.00 each in the period from August 1 to October 31, 2007. This corresponds to 4 percent of the total of 8,435,514 ordinary shares in issue.

The acquired shares are intended to serve as a contribution or purchase price payment in the case of mergers or the acquisition of companies or equity interests. They can also be utilized in the context of reorganizations in accordance with the *Umwandlungsgesetz* (German Reorganization and Transformation Act). Alternatively, they can be retired and disposed of to third parties. In this case, the lower limit is determined by the price of the Company's shares at the time of disposal.

The buy-back of shares is being implemented in its entirety by the independent credit institution M.M. Warburg & Co.
