AUGUSTA announces sale of the Lauer Group

Frankfurt am Main, May 29, 2007. Prime Standard listed AUGUSTA Technologie AG (ISIN DE000A0D6612) today finalized the sale of its 100 per cent stake in Elektronik-Systeme Lauer GmbH & Co. KG. The buyer, Beijer Electronics GmbH, is the German subsidiary of the Swedish public company Beijer Electronics AB. The contracted purchase price was set at approximately 6 million Euro and thus approximately corresponds to the book value of the Lauer Group.

After having completed its reorganization in 2006, the disposition of Elektronik-Systeme Lauer is another important step in the communicated strategy plan of AUGUSTA to focus on its high-margin business segments Sensors and Controls within an integrated industrial holding. With Beijer Electronics as acquirer and new strategic partner, AUGUSTA furthermore ensures the future growth and market position of the Lauer Group in Germany.

The Managing Board reiterates the targets for full-year 2007 for AUGUSTA Technologie AG as published in its 2006 annual report.
