

AUGUSTA finalizes sale of Dr. Keil GmbH & Co. KG

- **Clear focus on high-margin core divisions Sensors and Controls**

Munich, July 1, 2008. The integrated technology group AUGUSTA Technologie AG (ISIN DE000A0D6612) has sold 100 percent of its interests in Dr. Keil Informationstechnologie GmbH & Co. KG to a strategic investor with retrospective effect as of April 1, 2008. The parties have agreed not to disclose the purchase price.

By selling the Dr. Keil Group, which specializes in IT solutions, AUGUSTA is consistently applying its strategy of abandoning low-margin divisions that do not belong to the core business.

The Company

AUGUSTA Technologie AG is an integrated technology group with a focus on the niche markets of sensors and automation.

In the Sensors division, the company develops, produces, and sells sensor systems for customer-specific applications. The product portfolio ranges from the sale of individual pressure sensors to the development of complex sensor and measuring systems. The main areas of application are medical technology, industrial plant construction, automotive industry, and aviation and space travel.

The Controls division delivers solutions for process flow automation and quality management. The application areas range from industrial image processing to automation solutions for logistics and special vehicles.

In the fiscal year 2007, AUGUSTA sales amounted to EUR 119.3 million, with earnings before interest and tax (EBIT) of EUR 17.5 million.
